Response to Non—Conformance and Corrective Actions

Issued by SA Quality Ductwork to Climatech for The Garema Hotel.

PROJECT	ISSUED TO	ISSUED BY	DATE
The Garema Hotel (5-Star), ACT	**Keith Morgan — Climatech**	**Pablo Agusto — SA Quality Ductwork**	**Monday 14 September 2026**

01 ACKNOWLEDGEMENT

SA Quality Ductwork accepts responsibility for the non-conformance raised on site last week. The work involved was not authorised and was outside our scope. We are not going to explain it away. It is the only non-conformance recorded against us on this project and we intend it to stay that way.

02 ACTIONS COMPLETED

- **Personnel** — the supervisor involved is no longer on site.
- **Toolbox talk** — the talk on not touching other services, called by Climatech on the ground floor on Tuesday 8 September, was attended by our crew and has been adopted as a standing rule for our work on this site.
- **Supervision** — Mauro started as our site supervisor on Monday 14 September, inducted and briefed on the above before starting work.

03 CONTROLS NOW IN PLACE

CONTROL	ALREADY EVIDENCED BY
Nothing outside our scope — light fittings, other trades' services, temporary works — is touched without written direction from Climatech	Toolbox talk, 08/09. Confirmation sought before using Dynabolts, 09/09
Where we meet an obstruction or are unsure, we stop, photograph it and ask the same day rather than resolve it ourselves	Basement 4 drawing requested before proceeding. Queries raised from B1 and B2
A short daily note of what was completed, and this weekly summary with photographic record, issued without being asked	Works Summary Reports 01, 02 and 03, attached
One point of contact for all direction and escalation	Pablo Agusto, during site hours and outside them

04 REQUEST

WHAT WE ARE ASKING

That you judge us on the works delivered. The attached summary covers 5–14 September and is issued with this response. If at any point up to Friday 18 September you are not satisfied with our conduct or our output, tell us and we will stand down without argument.

Crew on site: Pablo Agusto, Eduardo and Mauro. Attached: Works Summary Report 03 (5–14 September 2026) and the direction and response record for the period.
